## NEWSLETTER

As with every month, we are cover what's new with **Misfit Studios**, this month's new products, and details on our February 2017 promotion. Read on for details!

### WHAT'S GOING ON WITH MISFIT STUDIOS

At long last, this first month of 2017 saw the release of [\\$layers: the Dead of Night](#). This is a product meant to be published under the Unisystem in 2006, but we couldn't get the approved version in under the license deadline. We've sat on it since then before finally deciding it would be a good fit for Savage Worlds. We hope you'll be happy with the results.

We're now ready to move on with some small releases for **Pathfinder** and **Mutants & Masterminds 3e**.

You may have received this newsletter because you have set your **OneBookShelf** account settings to allow emails from publishers. If you do not wish to do so, you must change this setting in your account.

### MISFIT STUDIOS IN PRINT

## PROMOTIONS

No reduced price promotion this month. Instead, given the state of things in America, we thought we'd bring out [Crawthorne's Catalog of Creatures: Demagogue Demon a.k.a. Tr'Ump](#) product to your attention. Although it's not offered at a reduced price, it is [Pay What You Want](#), so it's even better.
