WHAT'S GOING ON WITH MISFIT STUDIOS

[The Adequate Commoner for the Pathfinder RPG](#) is finally available! There have been many hurdles and stumbles getting the book together, but we managed to get it out on the last day of the month.

Aside from meaning we can finally get this interesting product into your hands, Misfit Studios is also now able to get back to other projects that have had to sit on the sidelines while it was in the works. Foremost amongst the projects we are eager to dive back into is *Metahuman Martial Arts 3e*.

The *Mutants & Masterminds 2e* version of *Metahuman Martial Arts* was easily the single largest third-party publisher product for the game, and the third edition re-release is on track to continue that record. Stay tuned for news regarding this exciting product!

YOUR WORLD NO LONGER: MUTANTS & PRIMER FOR ICONS

Stock #: MIS6008

Your World No Longer is a series of ICONS products intended to supply Gamemasters with packaged campaign details and ideas for stories involving global conquest and invasion. Each release outlines a separate scenario wherein a particular foe has mastered the world, providing information on how and why Earth was dominated, and how the world's heroes and villains responded.

The details provided are sufficient to allow the Gamemaster to run the game quickly and off-the-cuff, but remain open enough to permit further development (indeed, this is encouraged.) This open design format also allows the scenario to be used in just about any setting, be it one that's been published or one entirely of the Gamemaster's own devising.

The world is no longer yours but it is up to you to take it back. Show us what you're made of and resist!

The first release includes the primer material that will apply to running all future releases, as well as details for running a mutant takeover in your super-hero campaign.

This product provides details on how the mutants conquered the world and why, an overview of the characters' role in the Resistance, as well as game statistics for the new order's ruler, the incomparable mutant tyrant, Holocaust. Also included are stats for the geneplate warriors, the mutant nation's genetically modified human foot soldiers, and stats for the elite Purifier exo-suits and anti-mutant Pacifier combat robots.
