WHAT'S GOING ON WITH MISFIT STUDIOS

In May, I really pushed hard to get **Enemies Archived Revised and Expanded** finished and out by the end of the month. I had a lot of art to color, plus the new layout. The results are great – the new layout is really sleek and clean looking, and better organized than the original. We also published the print versions in a smaller format that Unisystem fans are accustomed to.

Our plans for June remain busy. **Misfit Studios** plans to push out a few of our smaller PDFs to keep things rolling, plus new stock art. I'm also working on converting **DOOM** to **Mutants & Masterminds 3e**, but I don't know if that will be finished by end of month. On top of that, Armed Force for the **Armageddon RPG** is getting an overhaul and re-release treatment similar to that which we did for **Enemies Archived Revised and Expanded**, but don't expect that for a while.
