### WHAT'S GOING ON WITH MISFIT STUDIOS

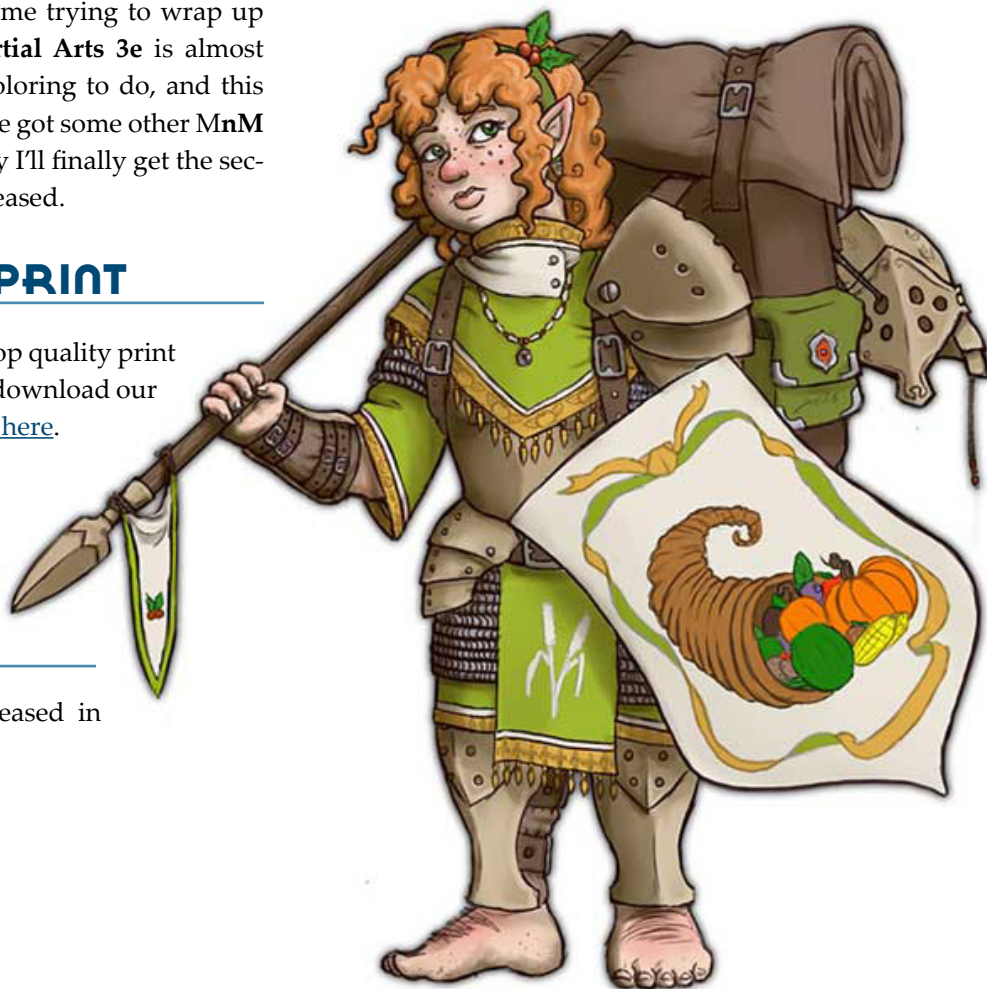

This month saw very little put out by **Misfit Studios** because I've been spending so much time trying to wrap up some big projects. **Metahuman Martial Arts 3e** is almost done—just some final editing and coloring to do, and this book will finally be out! After that, I've got some other **MnM 3e** projects in the works and hopefully I'll finally get the second edition of **Enemies Archived** released.

## CRAWTHORNE'S CATALOG OF CREATURES: GAZE GRABBER

Stock #: MIS0035

Each release for Crawthorne's Catalog of Creatures for the Pathfinder RPG presents a single, new creature for your Pathfinder RPG game, as presented by the famous and retired monster hunter and adventurer, Lord Crawthorne. Each release presents game stats for the new creature, as well as three adventure ideas to help insert them into your game.

A deceptively tiny creature, many underestimate the potency of the Gaze Grabber and its many eyes. Solitary predators by nature, gaze grabbers stalk their territories for prey to stun with their gaze, an effect that is compounded the more eyes face the same target. This capability makes them incredibly dangerous, especially to anyone who underestimates them based on their size.

Both a color and print-friendly version of the product are included.
