As with every month, we are cover what's new with **Misfit Studios**, this month's new products, and details on our November 2016 discount promotion. Read on for details!

WHAT'S GOING ON WITH MISFIT STUDIOS

Silly me. I've been so busy I originally released this with last month's opening text.

It's been another busy month for me. My day job's annual conference was here in Toronto at the end of October, and I was there every day doing what content managers do. So, October didn't see much new product come out from **Misfit Studios** except for a useful new product line for **Savage Worlds**.

You may have received this newsletter because you have set your **OneBookShelf** account settings to allow emails from publishers. If you do not wish to do so, you must change this setting in your account.

MISFIT STUDIOS' NEW RELEASES - GAME PRODUCTS

Here is what **Misfit Studios** released in October of 2016.

MODERN GEAR GUIDE: FIREARM AMMUNITION

Stock #: MIS7047

Each Gear Guide release for the Savage World rules provides material addressing one particular type of weapon, gear, equipment, vehicle, or the like. Although extensive, they are not presented as addressing all content that can possibly be represented on the subject.

Within Modern Gear Guide: Firearm Ammunition you will find a wealth of information on different types of ammunition. This content provides details on both bullets and shotgun ammunition (slugs and shells.) Everything from armor piercing to “smart” to wooden bullets is covered.
