WHAT'S GOING ON WITH MISFIT STUDIOS

Lots going on with **Misfit Studios** last month!

First off, we currently have a **Kickstarter** project going for **the Adequate Commoner**, a **Pathfinder RPG** product by J.M. Perkins. You can access it [here](https://www.kickstarter.com/projects/jmperkins/the-adequate-commoner/).

You have received this newsletter because you have set your **OneBookShelf** account settings to allow emails from publishers. If you do not wish to do so, you must change this setting in your account.

This **Kickstarter** project is for a book that provides suggestions, new rules, and more on how to run a game of commoner characters. It's all about doing more with less, with

PATHFINDER
ROLEPLAYING GAME COMPATIBLE

OCT 2014, ISSUE 1.6

a focus on role-playing and strategy over leveling up for power or finding the biggest magical sword.

We're kicking things off (no pun intended) with a **Pay What You Want** optimization guide for commoners, [You're Gonna Die Screaming!](#) This work, also by the author of [the Adequate Commoner](#), provides advice and guidance on how to make the most of your commoner characters.

On another note, after talking things over with Eden Studios, we have been given permission to re-vamp and re-release both of our products for the [Armageddon Role-Playing Game](#). Up first will be [Enemies Archived](#), featuring some fixes, clarifications, and some new monsters! I'm also colouring the interior artwork and giving the book a new look, including a new cover (pictured here.)

Oh yeah, due to popular demand, we'll be shrinking the book down to digest size to better fit alongside the rest of your **Eden Studios** library. Once that's done, we'll move on to giving [Armed Force](#) the same treatment.

So, stay tuned!

YOU'RE GONNA DIE SCREAMING!

Stock #: MIS0020

You're Gonna Die Screaming, the **Optimization Guide to Commoners** shows you how to take this NPC class out of the background and put it at the forefront of your game by helping players make the most out of commoner characters.

As an optimization guide, **You're Gonna Die Screaming** shows you the highs and lows of the choices you make while building a commoner character. Knowing which race gives you the most, best helpful abilities from the start, which abilities to favor, and which skills and feats will give you the most mileage all improve your commoner's chances of survival.

But, with proper optimization, your commoner's won't just survive. They can actually thrive!

Your choices are color coded, based upon the author's explanations and opinions, to show you how best to optimize your commoner character.

You're Gonna Die Screaming also serves as a primer for the **Adequate Commoner**, the ultimate adequate guide to running a campaign centered around commoner characters. Look for this product also coming from Misfit Studios.
